

TECHNICAL BULLETIN #6

FEDERAL SPECIFICATION PERFORMANCE ALTERNATES

The following product list is intended as a general guide for submittal of “performance alternates” to U. S. Government Paint Specifications. Although each product may not meet all specific compositional or testing requirements of the Federal Specification, the products will meet or exceed the performance characteristics of the specification for the intended use.

Products are listed by number of the individual product or product series for tint bases when required. Please refer to the index or to individual data sheets for product names and characteristics.
