- Three hour recoat
- Ideal for doors, trim, cabinets, woodwork and paneling
- Abrasion resistant
- Available in two sheens: satin and gloss

# OLYMPIC® PREMIUM INTERIOR FAST DRY VARNISH

## PRODUCT OVERVIEW

Olympic Premium Interior Fast Dry Varnish is an alkyd varnish designed to deliver professional results. It is recommended for interior applications such as woodwork, paneling, or any wood surface where extra durability and abrasion resistance is desired. As part of a one day wood finishing system, it can be used in conjunction with the Olympic Premium Interior Fast Dry Stains.

## APPLICATION TECHNIQUES

Apply with a high quality brush, pad, or spray equipment. Stir thoroughly before use, but do not shake. For new surfaces, apply one or more coats of Olympic Premium Interior Fast Dry Varnish as necessary for adequate protection. For refinishing projects, spot coat worn areas with Olympic Premium Interior Fast Dry Varnish and finish with one or two complete finish coats.

For best results, allow a minimum of 3 hours drying time between coats. To ensure a smooth finish, lightly sand the surface with 200 grit or finer sandpaper or 000 steel wool, prior to applying the next coat. Clean the sanding dust from the surface using a tack cloth or vacuum cleaner.

## ADDITIONAL INFORMATION

Dry time: Allow 8-24 hours before general use

Recoat time: Allow a minimum of 3 hours drying time before recoating

Clean-up: Mineral spirits or paint thinner

Coverage: Up to 500 sq. ft. per gallon (125 sq. ft per quart) on smooth surfaces

For use on: Doors, trim, cabinets, woodwork and paneling

## PRODUCTS

Product	Code	Available Size
Satin	43887	Quart & Gallon
Gloss	43888	Quart & Gallon

## COMMONLY ASKED QUESTIONS

**When is the Olympic Premium Interior Fast Dry Varnish preferred over the Olympic Premium Interior Polyurethanes?** Olympic Premium Interior Fast Dry Varnish is for interior use only and is not recommended for use on floors. Rather, it should be used for indoor projects where extra abrasion resistance is recommended, such as cabinets, doors, trim and more. For floors (as well as other projects), we recommend the Olympic Premium Interior Oil or Water Based Polyurethanes.

**What topcoats should you use for exterior projects?** For exterior projects, we recommend the Olympic Premium Interior/Exterior Spar Finish.
